PROFESSIONAL EXPERIENCE

Software Developer — ilegra (*Remote*) | Jan 2026 – Jul 2026

Project: Krutch — BI product with AI capabilities for sales teams

- Defined frontend architecture from scratch (Angular 19, standalone, PWA, Clean Architecture + DDD/CQRS)
- Built token-based design system with light/dark/high-contrast theming
- Integrated **Figma MCP Agent** for automated design-to-code workflows
- Configured **GitHub Copilot ecosystem** (custom instructions, agents, skill files) to enforce architecture via AI
- Applied **AI Pair-Programming** — rapid prototyping with Copilot Chat + Claude Code
- English-speaking international team

Software Developer — ilegra (*Remote*) | Jun 2025 – Dec 2025

Client: Thomson Reuters — CPV (Cross Partner Visibility) – Catalyst Team

- Architected project from zero using Saffron design system
- Achieved **100% unit test coverage**; WCAG accessibility compliance
- Used **Copilot Chat and Agents** for test generation, refactoring, and feature implementation
- English-speaking environment

Software Developer — ilegra (*Remote*) | Dec 2021 – Jun 2025

Client: Thomson Reuters — Legacy Modernization (3.5 years)

- Modernized legacy frontend systems with Angular ecosystem
- Built code generators using Visitor Pattern (JSON → code pipeline)
- Developed Convertible/Non-Convertible screens bridging legacy (CenturAngular) to modern architecture
- **Pioneered AI adoption** in the team, creating Copilot usage guidelines for legacy codebases
- Comprehensive unit testing with Jest

Software Developer PL — ilegra | Nov 2020 – Dec 2021

Client: Banco Agibank — Portal Corban

- Built financial features with React, design systems, and third-party libraries
- Lead frontend feature definition; prototyped in Figma based on UX principles

- Scrum/Kanban in cross-functional teams

Software Developer Intern — ilegra | Apr 2019 – Nov 2020

- Worked across React, Vue.js, and Angular on multiple projects
- Financial project (Acerta Promotora): React + custom design system
- Unit tests (Jest) and integration tests (Cypress)

OPEN SOURCE & COMMUNITY

- **Creator of javascripts-docs** — Open-source JS documentation with contributions from recognized devs (Felipe Fialho) and community stars
- **Mentor at ilegra** — Guided interns through code reviews, PR corrections, and best practices
- **Technical blog** — Published articles on frontend architecture and JavaScript patterns

DIFFERENTIATORS

- **AI-first workflow** — Copilot, Claude Code, Figma MCP Agent — configures, customizes, and leads AI adoption
- **AI Pair-Programming** — Rapid prototyping and iteration with Copilot Chat + Claude Code
- **Styling mastery** — SCSS architecture, CSS-in-JS, Tailwind, Design Tokens
- **Architecture at scale** — Clean Architecture, DDD, CQRS applied to frontend
- **Bilingual** — Effective in English and Portuguese daily
- **Quality-driven** — 100% test coverage, CI/CD, SonarQube, code reviews as habit
